Local and General

—Mr. A. M. McLean, of Indian Head, was in town on Friday last.

—Mr. John Love came down from Touchwood on Friday last.

—Mr. Robt. May, of Whitewood, was in town this week.

—Dr. Creamer, of Creamer & Gray, paid Regina a visit this week.

—Mr. A. M. McDonald, of Ft. Qu'Appelle, was a visitor in town on Friday last.

—Mr. D. H. McDonald, of Fort Qu'Appelle, was in town on Tuesday last.

—Mr. T. Dingwall, of Poplar Plains, arrived back from the old country on Friday last.

—Mr. Fetherstonhaugh, of Fort Qu'Appelle, paid his regular weekly visit to this town on Friday last.

—Mr. R. Williams, Principal of the Ft. Qu'Appelle school, paid this town a short visit on Arbor Day.

—I. N. Horn, representing the Lovell stationery company, of Toronto, paid us a visit on Friday last.

—Mr. Heuback arrived on Tuesday from Ontario, bringing with him a carload of thoroughbred bulls.

—Mr. A. McKillop, a traveller for an eastern boot and shoe house, was in town on Thursday last.

—Mr. J. H. MacCaul was out in the country a few days last week on a vacation.

—Mr. Angus Raymond returned from the general hospital, Winnipeg, on this morning's train, very much improved in health.

—Mr. Angus McKay, of the Experimental farm, Indian Head, was in town on Friday last, attending a meeting of the agricultural society.

—Mr. T. J. Wilson, of Elzelev, is the happy father of an eight pound boy, which arrived on Monday morning last.

—Miss Scott returned from Manitoba on Sunday morning, where she had been visiting relatives.

—Mr. McDonald son of A. McDonald, Ft. Qu'Appelle, who has been studying medicine at Winnipeg, came in on this morning's train.

—Mr. R. Johnston went west to Calgary on Saturday evening last with three cars of stock which he purchased in this district.

—Mr. J. S. McDonald, district superintendent of government telegraphs, returned on Saturday evening from a trip to Wood Mountain.

—Matrimonial statistics inform us that a widow has three times the drawing power of an old maid. This shows to some extent the virtue of the widow's plight.

—The race track seems to be a favorite place for new beginners on the bicycle. We have observed several young ladies of the town, trying to "time the animal," during the past week on the grounds.

—The large colored posters announcing Central Assiniboia's big fair were printed at The Progress office, and we feel quite flattered at the number of compliments we have received for our work.

—This week Creamer & Gray have to announce that they will receive on Monday a carload of Canadian wagons, made by the celebrated firm of Miller & Walker, which they can sell away down. Also a car of barb wire to arrive at the same time.

—The gramophone and known graph at the Methodist church, in a row evening of which "The Evening Prayer" is worth the price of admission. Adults, 15c; children, 10c. Mr. Ball is well known in town, as he was formerly of the ball family.

—The coming summer fair and exhibition of the Central Assiniboia agricultural society promises to be the most successful of these shows that have been held in the Territories. The committee who have the matter in hand are sparing no pains to have attractions for the fair that will outrival anything ever before seen in this part of the country. The days set for the fair are the 3rd and 4th of August.

The large posters announcing the exhibition will be out in a few days, on which may be found a list of the attractions.

—For the convenience of the public we publish this week a copy of by-law No. 233 of the municipality of South Qu'Appelle, which is a by-law for the regulating of transient traders, hawkers, peddlers, etc.

—The latest addition to Northwest journalism, says the Calgary Herald, is "The Indian Advocate," printed with a type writer and cyclostyle, and published at White Fish Lake, Northern Alberta.

—At the depot: Said one of the Newfoundlanders imported on Sunday, to a resident, "The farmers here must make a lot of butter, judging from the number of cattle around." "Citiz n—? No, we have to import it." "Why, what do they do with all the milk," asked the newcomer. "Grow beef on it," was the reply. "How many cattle do the farmers keep on their farms?" "Oh, some keep from 5000 to 25,000," was the answer. "Whoo-o-o, that knocks Newfoundland on the head," said the stranger, rubbing his chin and turning round and going over the prairie. —Lethbridge News.

FORT QU'APPELLE.

(From our own correspondent.)

Fishing, tennis, and cycling are the order of the day.

Mr. D. H. McDonald, M. L. A., and Mrs. J. A. McDonald, visited the station on Tuesday last.

The members of our public school football team intend playing the return match with L-bet on Saturday next, at the F. R.

The new court of the I. O. F. instituted last month, is in a flourishing condition, and the membership is rapidly increasing.

Mr. Chris Payne, contractor, is busy with his preparations for building Mr. Jas. Dixon's new residence.

On Saturday last Mr. A. McDonald and Mr. R. Williams attended a meeting of the Board of Directors of the Central Assiniboia agricultural society at the Station. Mr. Williams was accorded a hearty vote of thanks by the directors for the efficient manner in which he had conducted affairs of the society during the past year.

The congregations of both the English and Presbyterian churches are very satisfactory, and both Mr. Johnson and Mr. Hall are to be congratulated on the very marked improvement in the attendance.

Messrs. A. E. Fredde & Co. have secured the services of Mr. Frank Anderson of Lindsay, Ont. Mr. Anderson is the nephew of Mr. George Anderson, Kenlis, and comes well recommended from the west, where he held a position in his brother's store for six years. His brother Charles is farming at Kenlis.

The Lawn Tennis club practice on Wednesdays and Saturdays. The attendance of members so far has been very satisfactory.

Messrs. Humby and Lecher, of Touchwood Hills, were in town on Tuesday.

Great preparations are being made for the big meeting at Touchwood on the 24th inst., and a good time is expected.

Mr. Frank Leader has been appointed to take charge of the cream station for the season. Frank gave good satisfaction last year and we feel sure that he will do so this year.

The attendance at the public school is increasing every week. Several children from outside point are in attendance, and more expected soon.

A Travelling Pedlar.

The itinerant pedlar is of no use to a town. He gives nothing to the churches or public expenses. He has nothing in common with the people in a town. He swindle, and often does, getting into the next town or state before his victims realize how badly they have been taken in. The honest merchant has a reputation to sustain. He beats his share of the expenses of the town. When a subscription is passed he is the first to be ap-

proached. He builds a house and makes other permanent improvements that enhance the value of our property. He helps pay for churches in which we worship, and so on to which we send our children. He cannot afford to misrepresent his goods or swindle his customers. Self-interest alone prevents this. It is not difficult to decide which of the two classes of merchants should receive the patronage of the people.—Store-keeper.

Fatal Accident.

A fatal accident occurred at a point eight miles west of Walsh station on the Moose Jaw division of the C. P. R. on Friday evening by which Mr. A. Baker, engineer, and Mr. J. Smyth were both instantly killed. At the point named a small culvert had been burnt out, it is believed by prairie fires, and the freight locomotive on which Baker and Smyth were being the first to pass over, was dished into the ditch, together with six cars of lumber from British Columbia. A tramp stealing a ride on the train was injured. A freight train passed over 7 hours previously and it was safe at that time. A wrecking train from Moose Jaw soon had the bridge repaired.

Baker, the engineer, was a married man and lived with his family at Moose Jaw. Smyth was single and also resided at Moose Jaw. Both were very popular and highly respected.

Aberdeen's successor.

The probable successor to the Earl of Aberdeen as governor-general of Canada is being discussed by several of the London journals. The Daily Mail this morning suggests the Earl of Jersey, who held a similar position in New South Wales from 1890 to 1893. He is 54 years old. The Morning Post again advances the name of the Duke of Leeds, who is 36 years old and a Prince of the Holy Roman Empire.

The Late D'Alton McCarthy.

Toronto, May 16.—Rev. Canon Cayley, at St. George's church yesterday morning made a sympathetic reference to the late D'Alton McCarthy, who attended there for nineteen years. He had been a member of this congregation of Rev. Mr. Cayley's, and for those nineteen years he supposed no man had been seen more regularly in his place in the church, although during a large part of his life Mr. McCarthy's business kept him from getting home late on Saturday night or early on Sunday morning. It did not keep him from attending service. How many men are there, he asked, who would not make such an excuse for staying at home.

One of a healthy woman's principal charms is her vivacity of carriage—the dainty, springy steps with which she walks. The woman who suffers from weakness and discards the use of the distinctly feminine organism, who is troubled with back-aches, stitches in the sides, dragging down or burning sensations, sick headaches and the multitude of other ills that accompany these disorders, cannot have the dainty, bounding carriage of a healthy woman. She will show in every movement

that she is a sufferer.

There is a wonderful medicine for troubles of this description, that has stood the test for thirty years, and has been used successfully by many thousands of women. It is Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs concerned and makes them strong, healthy and vigorous. It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It is the discovery of Dr. R. V. Pierce, an eminent and skillful specialist for thirty years, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. This is one of the greatest medical institutions in the world. During the thirty years that Dr. Pierce has been at its head he has gained the unbounded respect of his fellow citizens at Buffalo, and they showed it by making him their representative in the National Congress, from which position he resigned to give the remainder of his life to the practice of his chosen profession. He will cheerfully answer, free of charge, any letters written to him by suffering women. Address, as above.

"A few years ago," writes Mrs. W. R. Bates, of Dilworth, Trumbull Co., Ohio, "I took Doctor Pierce's Favorite Prescription, which has been a great benefit to me. I am in excellent health now. I hope that every woman who is troubled with 'women's ills' will try the 'Prescription' and be benefited as I have been."

QU'APPELLE PROGRESS.

Thursday, May 19, 1905.

OUR WESTERN HERITAGE.

THE HAPPENINGS OF THE GREAT WEST BRIEFLY TOLD.

A Resume of the Events of the Week Told in Short and Interesting Items—Prominent People, Their Sayings and Doings.

A large number of American horses will start at Brandon's big race meet, May 24 and 25.

A branch of the Bank of Ottawa will be opened at once at Dauphin. Suitable premises have been secured.

The Manitoba Trusts Company have decided to increase their capital stock from \$1,000,000 to \$2,000,000 paid up.

Engineer Bruce has commenced the survey of the new Southeastern road on the old grade of the N. E. R. in St. Boniface.

Hon. Sidney Fisher, minister of agriculture, will visit Great Britain this year and may attend the Paris exposition.

There is every indication that the Great Northwest Central railway will be extended fifty miles west of Hamiota during the coming summer.

Commencing this week the G.N.W.C. railway will run three trains a week to Hamiota and return. The train will leave Brandon Monday, Wednesday and Friday, at 8 a.m.

Persons drawing pensions from the United States are liable to forfeit the same if they do not report for active service, war having been declared. There are several U.S. pensioners in Manitoba.

Mr. Fares, of Ryan & Fares, has received word from Portage la Prairie that his valuable stallion, Wildemont, first prize winner at the Industrial exhibition last year, and for many years previously, Wildemont was eighteen years old.

Fred S. Young, formerly manager of the Globe Savings and Loan company, occupies a cell in the provincial jail, awaiting a preliminary hearing on charge of stealing \$800,000 preferred against him by the company.

England and Australia are still asking for Canadian flour and sales have been made for both places. Altogether 9,000 sacks were sold, 5,000 of which went to Australia. England, however, has made further enquiries for Manitoba brands. Montreal Herald.

The C. P. R. dining hall caught fire at noon at Moosejaw last night. It is supposed by a spark from a chimney or locomotive. Part of the contents were saved but the building was totally destroyed. This will cause great inconvenience to commercial men and the travelling public.

Messrs. Garrison and Wood, of Winnipeg have invented an air tight cession in connection with a river steamboat to be used in washing the sands of gold bearing rivers and extract the precious metal. It is suggested that a company be organized to place such a contrivance on one of the Yukon river boats.

The C. P. R. steamer Tartar, from Vancouver and Victoria for Wrangell and Skagway, left on May 12. At Wrangell connection is made with the company's river boats to the Yukon, and at Glenora connection is made to Teslin Lake, from which point the company will have a steamship line running to Dawson City.

The Canadian Pacific Railway company is adopting every feasible means to induce owners of stock and cattle shippers to send these animals to western ranges instead of to the States. The inducements offered have had a good effect and many hundreds of stockmen are sent every week into Alberta.

A gentleman from the Portage Plains, one of the largest farmers in that favored district, was recently offered \$1.41 for his wheat. He has his last three years' crops of wheat in store on his farm and in the town elevators, but declined the offer made to him. He has confidence that \$1.50 will yet be given in Manitoba for No. 1 hard.

Referring to the culture of tobacco in this province, Mr. S. A. Bedford, Superintendent of the Experimental Farm at Brandon, says that they have grown tobacco there for some years, but with no very definite results. They can grow the plant but find it difficult to ripen any variety they have tried. They propose trying a much earlier variety this season.

During the month of April about thirty entries for home-stocks were made at the Dominion J and office, Winnipeg. They were for all parts of the province. The department has received a great many enquiries by letter from the States and the west, and a very large number of verbal enquiries have been made by the farmers on behalf of their sons for land in the neighborhoods where the families reside at present.

Mr. Geo. H. Webster, land commissioner of the M. & N. W. line, reports that the number of new settlers along the line this spring is very gratifying. The new-comers hail from North Dakota principally. The Gallinas who located near Yorkton last year are improving themselves to be good workers. Some of them have already dug five acres apiece, with a spade, and planted therein roots, vegetables and oats.

A pleasant surprise was afforded the employees of the Ogilvie Milling company the other day, when the general manager, Mr. F. W. Thompson, announced a general advance in wages of about 10 per cent to go into effect at once. It is needless to state that this action on the part of the company is highly appreciated by the employees and cements still further the good will which has always existed.

Mr. William McKenzie, head of the railway contracting firm of McKenzie & Mau, has arrived in Winnipeg from Toronto. Mr. McKenzie's visit is in connection with railway work which he will undertake in the province this year. He wishes to personally inspect the proposed starting point of the new Southeastern road and will also go over the Dauphin line. An important conference with the local government cabinet will also be held.

Mr. Hugh McKellar, of the department of agriculture, has completed the distribution of seed grain among the farmers who were burned out at Beausejour last

fall. The action of the government and the people generally in sending assistance to these people, most of whom are foreigners, has encouraged them greatly and they are now making redoubled efforts to get themselves firmly established. The cultivated area in the district will be very largely increased this year.

TO LOOK FOR ANDREE.

They Believe That Andree Would be Found in Alaska or Siberia.

Messieurs Terzaghi, Feret and Nicholas Orbe, of the French party of scientists, from the National Geographical and Topographical society of Paris, who are to explore the unknown Yukon district, and at the same time conduct a search for Andree, passed through Winnipeg recently. Their leader, Mr. Anthony Variele had gone to Washington to confer with the war officials there, in connection with the utility of his balloons for war services and will join the rest of the party at Vancouver. It is the intention of the travelers to go to Glenora by boat, and thence to the far north by means of the balloon. The balloon will at all times be under the control of the navigators. It will travel at a height of about forty to seventy-five yards above the earth, with which it will be in continuous connection by means of a guide rope. The belief of the party is that if Andree has succeeded in his plan, he would be found in Alaska, if he had failed he was no doubt in Siberia, and might be given up for lost.

Hon. Mr. Sifton has given the party all the assistance in his power, and the expedition will be supplied with free provisions by the government party on the H. B. Co., in the Yukon. All the members of the party are experienced aeronauts.

BREAD RIOTS IN ITALY.

Three Hundred Were Killed and a Thousand Injured.

The general situation in Italy is regarded as being extremely grave. It now seems clearly demonstrated that politics are mixed up with the disturbances which have occurred in various parts of the kingdom owing to the high price of bread, and the clerical party is believed to be fomenting trouble. A royal decree has been issued, proclaiming martial law throughout Tuscany, one of the most fertile and best cultivated parts of Italy. There has been a renewal of serious rioting at Florence, capital of Tuscany, and there were further disturbances at Leghorn, capital of the province of that name, situated on the Mediterranean, about fifty miles from Florence. A both places a number of rioters were killed or wounded by the troops detailed to maintain order.

Martial law has been proclaimed in Milan on account of bread riots. The town is in a terrible condition. A veritable battle occurred the other day in the Via Sanabiane. Thousands of tiles and chimneys were hurled from the roofs upon the troops who were compelled to retire. A similar fight took place in the Via Torino, and it is believed that no fewer than 300 were killed and 1,000 injured.

A ROUTE TO THE YUKON.

Chief Engineer Coste Will Examine Water Stretches to Dawson.

Chief Engineer Louis Coste, of the Dominion railway department, passed through Winnipeg recently on his return to the coast. Mr. Coste went out to inspect the proposed route to Teslin Lake early in the spring and returned to Ottawa about three weeks ago to make his report. He is now going through to Dawson City to do work that will keep him fully occupied until late in the fall. His first work will be up the Stikine river, which he will thoroughly examine with a view to securing reliable information as to its navigability as far as Glenora. The government scout boat Samson is now there and will take out bowlers and rocks, so that boats drawing 14 inches of water may ply without danger. Mr. Coste will also inspect Teslin lake and the streams running to Dawson City, in order that a complete report of these waters may be placed before the government. He does not think a telegraph line will be built to Dawson City this year.

TAKE YOUR CHOICE.

We Are Sure You Will Select the Diamond Dyes.

There are several kinds of wretched imitation and soap grease dyes that are sold by some dealers for the sake of large profits. These dyes bring constipation and despair to every inexperienced housewife who uses them. The results may be summed up as follows: Mixed, muddy colors, ruined garments and materials, bad temper, and a shower of wrath on the dealer who has sold the deceptive dyes.

For long years the women of Canada have had before them the celebrated Diamond Dyes for home coloring work. These chemically pure dyes have carried satisfaction and delight to all who have used them. Old, faded and dingy garments have, by the aid of Diamond Dyes, been transformed into new and beautiful creations; money has been saved, and the happiness of families increased. Where imitations have been faithfully followed, not a single failure has been recorded.

If you are a novice in the work of home dyeing, you have now presented to you the varied classes of dyes that you can purchase and use. If you desire success, profit, an unruffled temper and home happiness, you must surely decide in favor of the Diamond Dyes, the only warranted dyes in the world. You cannot be deceived if the name "Diamond" is found on each packet of dyes you buy. Book of directions and card of 48 colors free to any address. Write to Wells & Richardson, Co., Montreal, P.Q.

Isn't it strange the way people make mountains out of molehills? "Oh, I don't know. When you aren't big enough to see over them, there isn't much difference."

Some wonderful samples of last year's wheat have been received at the immigration hall from Edmonton. They show 45 heads from one root of grain. The crop was 50 bushels to the acre.

Quickcure cures Tooth Ache. Stops all Pain.

The attempted assassins of King George of Greece, have been executed.

Dr. Ayer's

is the name to remember when buying Sarsaparilla. Dr. Ayer's Sarsaparilla has been curing people right along for nearly 50 years. That is why it is acknowledged to be the sovereign Sarsaparilla. It is the original and the standard. The record of the remedy is without a rival—a record that is written in the blood of thousands, purified by its power.

"I nursed a lady who was suffering from blood poisoning and must have contracted the disease from her; for I had four large sores, or ulcers, break out on my person. I doctored for a long time, both by external application and with various blood medicines; but in spite of all that I could do, the sores would not heal. At last I purchased six bottles of Dr. Ayer's Sarsaparilla, thinking I would give it a thorough trial. Before the six bottles had been taken, the ulcers were healed, the skin sound and natural, and my health better than it had been for years. I have been well ever since. I had rather have one bottle of Dr. J. C. Ayer's Sarsaparilla than three of any other kind."—Mrs. A. F. Taylor, Englewood, N. Dak.

Get Ayer's Sarsaparilla.

Oatmeal Duties.

Victoria Colonist: It is announced that no change is to be made in the oatmeal duties. The duty on oats is 10 cents per bushel, on oatmeal 20 per cent. On an 80 pound sack of oatmeal the duty is from 22 to 24 cents, but on the oats out of which our mills would make the meal the duty is 40 cents. That is to say, the duty on the raw material is double that on the manufactured article. This seems highly unreasonable, and it is mischievous because it is crippling the mills. All that the millers ask is that the duties shall be equalized, and surely that is not very much.

A CHEAP MEDICINE.

IS ONE THAT WILL PROMPTLY AND EFFECTIVELY CURE.

Mr. John Hitch, of Ridgetown, Tells How He Had Spent Dollar Upon Dollar in Vain Before Finding the Medicine That Cured Him.

From the Standard, Ridgetown.

People who read from week to week of the marvellous cures effected by the use of Dr. Williams' Pink Pills little know that right in their midst exist many who have been relieved from pain and suffering by the use of these wonderful little pills after having suffered untold agonies for months.

Mr. John Hitch, a man well and favorably known throughout the county was ever ready when opportunity offered to speak a word in praise of these pills and was never tired of recommending them to his friends. A representative of the Standard, anxious to know of the cause of Mr. Hitch's recommendation called upon him at his home recently and upon telling that gentleman the object of his visit Mr. Hitch consented to an interview. The story in his own words is as follows:—"In the winter of 1891 I was taken with a severe attack of a gripe from which I was confined to the house for some time. This was followed by severe pains and swellings of my lower limbs. I consulted a physician and he told me it was acute rheumatism. I continued under his care for about two months. I was unable to stand alone, but sometimes when I got started I was able to make a few steps unaided. The trouble was principally in my feet and clung to me all summer long. I tried almost everything that friends suggested hoping to gain relief, but neither medicine taken inwardly nor liniments applied externally gave me any relief. The pain was very great and I was only too ready to try anything suggested. I spent dollars upon dollars in doctor's medicine, but all to no purpose. The last week I was attended by a physician it cost me five dollars, and having about that time read in the newspapers of the work accomplished by Dr. Williams' Pink Pills I concluded it was certainly worth the experiment and accordingly purchased a box from a local druggist and commenced their use discontinuing the doctor's medicine. This was in June or July, 1892. After I had taken the first box of the pills I could feel some change and after taking seven boxes I noticed a great improvement. I continued taking them until I had used thirteen boxes when I must say I feel as well as I ever did in my life. Some of my customers who came into my yard would ask me what I was looking so well (knowing the sick spell I had undergone) and I would always tell them that Dr. Williams' Pink Pills had wrought the change. They are the cheapest medicine I ever bought," said Mr. Hitch, "and if I had what I spent in other medicines I could sit at ease this winter. During the interview Mrs. Hitch was an occupant of the room and she heartily concurred in what her husband said, and stated that for one other member of the family the pills had been used with success in a case of severe nervousness. Mr. Hitch at the time he was seen by the reporter appeared in excellent health. He is 50 years of age and a man who had always been used to hard work. He was born in Cambridgeshire, England and came to this country 27 years ago. Before locating in Bridge town he conducted a brick and tile yard at Longwood's Road Middlesex county. He has been carrying on a successful business in Ridgetown for the past ten years.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood and strengthen the nerves thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark.

"Dr. Williams' Pink Pills for Pale People." If your dealer does not keep them they will be sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co. Brockville, Ont.

Use Quickcure for Lame Back, Sprains, Strains, &c.

Discovery of Gold at Vermilion.

Dr. T. F. Chamberlain, inspector of provincial prisons, has received a telegram from a friend in North Bay containing the information that gold has been discovered in the bed of the Vermilion river. The communication is million river. The communication is million river. The communication is million river.

A HAPPY RELEASE

From a Trio of Afflictions.

Paine's Celery Compound Saves the Life of a Lady in Seamo, Man.

THE TERRORS OF RHEUMATISM NEURALGIA AND HEADACHES ARE BANISHED FOREVER.

Health and Happiness Bestowed on all Who Make Use of Paine's Celery Compound.

WELLS & RICHARDSON CO., GENTLEMEN:—I am very pleased to be able to tell you of the great good that I have derived from the use of your Paine's Celery Compound. Before using your valuable Compound I was so crippled with rheumatism that I had to crawl on hands and knees from one place to another. I also suffered from neuralgia and dreadful headaches, and could not get more than one or two hours of sleep each night. I often thought it would be better to die than live and endure my terrible agony.

I was happily advised to use Paine's Celery Compound, and after use of six bottles the rheumatism and neuralgia are banished, and I now eat, rest and sleep well. My present improved state of health is due entirely to the health-giving virtues of Paine's Celery Compound, which has done wonders for me. My husband is now using it for dyspepsia, and it is doing wonders for him. My neighbors, to whom I have recommended Paine's Celery Compound have been greatly benefited.

Yours truly,
MRS. ANNIE E. COBB,
Seamo, Man.

Many people are incapable of loving, and there are others who ought to be.

Minard's Liniment Relieves Neuralgia.

Man will do it, don't mind being scratched.

Minard's Liniment Cures Burns, etc.

The moon doesn't mind the bulging barking.

BOVRIL

Is a condensed food, capable of producing physical strength.

Through Any Physical Strain

And is equally valuable to those suffering from mental strain.

GREAT MENTAL STRAIN

It has no equal for restoring strength to the invalid.

And it will agree with the weakest stomachs. Get it from your druggist or grocer and try its value.

The Man who rides a Wheel only half enjoys its delights until he gets a Rigby Porous Waterproof Bicycle Suit

In dry weather you would not know the cloth was waterproof and in wet weather you can ride all day without getting wet. The Rigby cloth admits the air but keeps out the rain. Any wheelman will see the great advantage of it at once.

Rigby Bicycle Suits

are made only by H. SHOREY & CO., Montreal, but are sold by all up-to-date clothing dealers.
